

CONTROL4 WIRELESS CONFIGURABLE KEYPAD, CONTEMPORARY

CONTROL4® C4-KC120277-C, C4-KC240-C

Control4's new Contemporary Lighting is designed to elevate lighting control and aesthetics. With a beautiful design that suits the smart home of today, Contemporary Lighting gives you a new industrial design that customers will love.

The Control4 Wireless Configurable Keypad is an elegant and customizable user interface that unlocks the power of one-touch automation. The keypad can be configured to control almost anything from your music and garage doors to security systems, lights, and more. The keypad can be configured with two to seven buttons, using four different button sizes, for a total of 37 possible configurations. Personalize the keypads based on how your system is set up using custom backlit engraving on each button. Available in 10 fashionable colors and finishes.

Faceplates are not included—remember to order faceplates separately.

- Includes a button kit with every button necessary to make any of the 37 possible button configurations
- Elegant, sophisticated design makes a beautiful addition to any home or business
- Custom engraving available to clearly identify each button
- Backlit button engraving with programmable color control for easy readability regardless of time of day or light level
- Programmable RGB LEDs provide status feedback for lighting and other devices in the system
- Ambient light sensor automatically adjusts backlight and status LED brightness depending on the light level in the room
- Available in a wide array of gloss and satin colors (see Available Colors)
- Control4 screw-less faceplates, sold separately, provide a sleek profile (see Available Accessories)
