

NEW FIRMWARE MOTIVITY 1.4

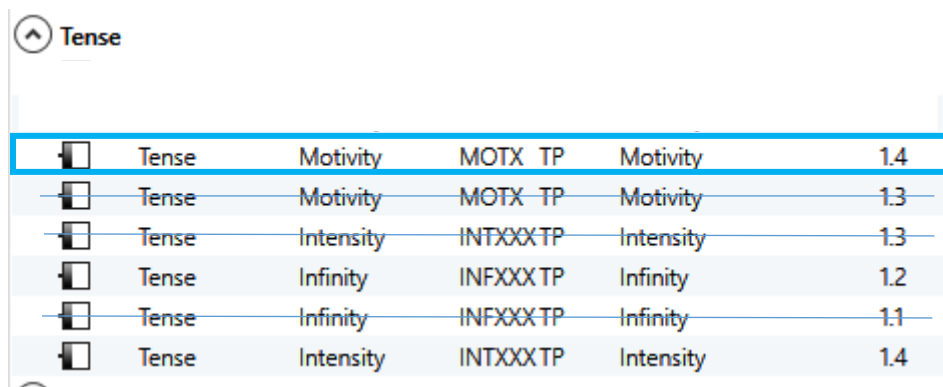

PLEASE MAKE SURE YOU HAVE THE LATEST FIRMWARE VERSION

These Motivity devices come with our new firmware update V1.4. Please make sure your programmer uses this latest version to program the devices, since otherwise he will downgrade the devices to their older firmware version. This will also result in a lengthy download.

The new firmware version will be included in the E-mail communication regarding your order, by Sales@tense.be.

Please make sure to import the new firmware in your ETS and to delete the older one.

We thank you for your cooperation regarding this update.
