### Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product.

## INWALL BRONZE/4 SURROUND

Never before has Triad offered such a reasonably priced unique solution to the problem of integrating surround sound invisibly into a home theater environment.

The InWall Bronze/4 Surround was designed to provide an enveloping surround field when used with better A/V receivers in moderately sized rooms, with both analog and digital sources. Despite its moderate price, the InWall Bronze/4 Surround features a premium flush Acoustiperf grill that can be custom paint matched to your decor by Triad.

Due to its shallow profile, it can be mounted into a standard 4" wall depth, or into a ceiling. The InWall Bronze/4 Surround comes as a dipole, but as it is built-to-order, you can specify a bipole configuration if you prefer. When used with Bronze LCRs and Triad Subs, the InWall Bronze/4 Surround completes the perfect home theater and music system for the enthusiast on a budget.
