FEATURES

Interfaces via RS232, RS485, Ethernet, and KNX to connect to all major Home Automation brands

Automatic driver detection and installation for all Home Automation systems

Communicates through ASCII, MODBUS RTU, MODBUS IP, BACNET MSTP, BACNET IP, and REST API protocols

Touch screen display for simple device configuration and centralized control of the VRF system

Configurable I/O's

ABOUT US

CoolAutomation is the industry leader in Internet of Climate (IoC) technologies and HVAC automation. Internet of Climate (IoC) is a universal concept designed to allow any indoor climate system to be internet-connected easily, securely, and reliably. CoolAutomation's unique combination of devices and cloud-based technologies are the next evolution of IoT, and are crucial to any professional within the HVAC service, management, or home and building automation industries. CoolAutomation's solutions enable remote monitoring, diagnostics, service, and control of any HVAC system within the residential, commercial, and hospitality industries. CoolAutomation is a global company headquartered in Israel with thousands of customers in over 90 countries.
