

Triad® Garden Array Sat and Sub

Triad® Garden Array Outdoor Speaker System

The Triad Garden Array is a family of premium, all-weather landscape speakers that are the perfect combination of elegance, sound, and durability. This family includes the unique GA4 Satellite and powerful GA10 Subwoofer speakers, and are designed to be placed throughout flowerbeds or around the yard blanketing outdoor spaces with rich, beautiful audio. Triad Garden Array speakers are completely scalable for every outdoor listening experience, from courtyards and patios to entire residential estates.

The Triad GA4 Satellite speaker is built around a unique, Ultra-Broad Dispersion (UBD) driver that provides superior sound coverage using fewer speakers. GA4 Sats deliver a 150-degree listening area that is over 50% wider than traditional landscape speakers, allowing for broader speaker placement without compromising sound quality.

The GA10 Subwoofer is designed for both above- and below-ground installations so the bass can be located exactly where you want it—on the patio or deck, or buried near a pool, gazebo, or pergola. Kits are available for either type of installation.

Key features:

GA4 Sat

- All-weather enclosure and design, scalable system
- (1) 4-1/2" UBD™ Driver allows you to locate sats 15-20 ft (4.5-6 m) apart
- UBD™ (Ultra Broad Dispersion) provides consistent 150-degree-wide dispersion and total sonic coverage without beaming or hot spotting
- 8 ohms or 70/100 volt systems
- Adjustable mounting poles up to 18"
- Ground stakes included, wall mounts available

GA10 Sub

- All-weather enclosure and design
- Down-firing 10" woofer (side firing when mounted to the Underground Kit)
- Can be mounted above or below ground with the optional Underground Kit
- Handles 300W of power at 4ohm
- Compact size
- Designer friendly
